## JACOBY-SMITH

The marriage of Miss Virginia Jacoby, of Paris, and Francis Smith, of Paintsville, took place at the home of the bride's parents, Mr. and Mrs. Joseph Jacoby, on the Lexington road, near Paris.

The bride wore her traveling suit of blue duvetyne, with a corsage of bride's roses. Her cousin, Miss Emma Jacoby, who was bridesmaid, was also gowned in duvetyne, and carried an arm bouquet of roses. Houston Jacoby was best man. The ring ceremony was used, Rev. F. B. Jones officiating.

The Jacoby home was beautifully decorated with cut flowers, ferns and white tapers. Immediately after the ceremony Mr. and Mrs. Smith left for a short wedding trip. They are now at their home in Paintsville, where Mr. Smith is engaged in oil operations. He is the only son of Col. and Mrs. George T. Smith, of Beattyville, and is a nephew of J. Simms Wilson and David T. Wilson, of Paris.

Among the wedding guests were Col. and Mrs. George T. Smith and daughter, Miss Mayme Smith, of Beattyville; Mr. and Mrs. H. Smith, of Lexington; Mr. and Mrs. George B. Jacoby, Mr. and Mrs. Kenney

Thomas, Houston Jacoby, Mr. and Mrs. Wills Jacoby, Miss Lila Kenney, Miss Elsie Jacoby and Miss Dorothy Jacoby, of Bourbon county.

## PINNED UNDER OVERTURNED TRUCK.

A large motor truck, property of the Paris Milling Co., loaded with sacks of flour, and chauffeured by Bryan Jones, turned turtle at a point on the Georgetown pike, near Paris, and rolling down a steep embankment, lodged against a fence. Jones and a colored man with him were in the cab of the truck, and were pinned underneath the overturned vehicle. They were rescued by the occupants of a passing machine. Beyond a few scratches they were uninjured. The steering gear of the big truck broke, causing it to swerve from the road. A considerable portion of the flour was damaged when the sacks burst, throwing their contents on the ground.

## MOVIES BY WIRE

Motion pictures are to be sent by

wire. The name of the marvelous apparatus is the "Telecinematograph." The American boy who has shortened the long word cinematograph to "movies" will probably find an equally expressive word for the new apparatus. Photographs are now being sent daily by wire for hundreds of miles and it is believed the telegraphic transmission of moving pictures will soon be a common

place. The method is the discovery of a Frenchman. It consists of a cylinder with minute grooves only 1.20 of a millimeter in size controlled by much complicated electrical apparatus. By this it will be possible to take a movie in London, for example, and watch its reproduction a few minutes later in American cities.
